FEATURES :

1: Freedom - Listen with an iOS, Android, or PC device with any music app in the world like Spotify, Pandora, Apple Music, or any other. Access all the features of your favorite app. New music services are available immediately, no waiting for system updates.

2: Native Streaming™ - Select music in your favorite music app and then use Airplay, Chromecast built-in, Spotify Connect, or DLNA to listen to any zone in your house. No third party control apps or added complications needed.

3: Unmatched Simplicity - From install to streaming music, the A Series is in a class of its own. Use the VSSL app on iOS and Android to set up and configure settings and added room control.

4: Easy Party Zones - Easy party zones eliminate the need for redundant steps for multi-room listening. For zones you group over and over, simply set up a party zone to easily play to multiple zones straight from the music app in one step.

5: Performance - The A Series is made for the music enthusiast with the highest grade components available. With high power efficient circuitry and 50 watts per channel, VSSL makes your music sound good.

6: Stability - Designed with extreme detail for reliability speaker outputs are 8 and 4 ohm stable, with auto protection circuitry to keep your music playing.

7: Automation Integration - Integrate with major home automation systems for greater control. Drivers expose matrix capabilities and other controls to allow the VSSL to be used as a matrixed audio system.
